Odour Consultant

Holger has built up broad overall expertise in the field of odour, gas and noise emission measurement, as well as flow measurement.

He is one of the Olfasense experts specialised in odour dispersion modeling (particel dispersion, e.g. Austal). Holger also brings practical knowledge in sensory odour analysis (laboratory and field measurments) and in building and testing odour measurement equipment.

Education

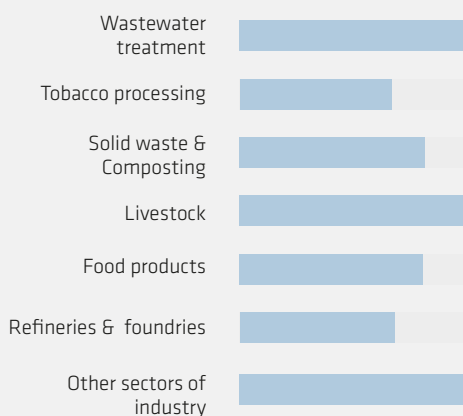

Engineering degree (Dipl. Ing) in
Environmental Engineering at
University of Applied Sciences
Münster (Fachhochschule Münster)

Mechanic Education Background

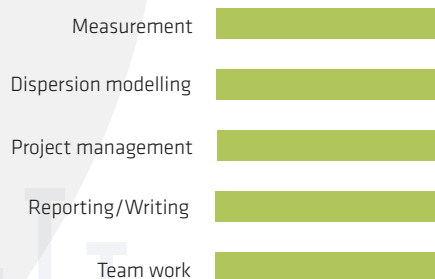

Reference Clients

- Philip Morris
- Nestlé Purina
